### HELPING DEVELOP FROM THE UK:

- akuBaku \*
- Earth Ambassador programme \*\*

\*akuBaku launches in the Autumn 2018 and will be an activities database on the level of booking.com Its core attribute will be that a percentage of each booking will be directed towards making a contribution to Earth Ambassadors and the work they do at the total discretion of the person making the booking. We need individuals from different cities from around the world to help identify interesting activities in their city or its environs that we can contribute to the website. If wanted, they can become the 'face' of their city!

\*\*Earth Ambassadors are people who selflessly work towards the common good in their community, in support of people, nature or the environment. The Earth Ambassador website will recognise their efforts and facilitate support for them through providing a platform for securing resources and equipment, obtaining funding, attracting volunteers and securing expertise. We need people who can help us identify more Earth Ambassadors.
